

TIME TO HIT ON IMMIGRATION

Recent US polls show that most people believe...

- Immigration is good for our country.
- Undocumented migrants should have a pathway to citizenship.
- Refugees fleeing civil war and other disasters should be granted asylum.

But ICE and the Border Patrol...

- Rip families apart.
- Snatch migrants from the street, work, courts, and hospitals.
- Detain ordinary civilians in brutal jails & centers.
- Deport long-time residents by the thousands.
- Turn their backs on desperate refugees.
- Incite a climate of terror in our neighborhoods.

That's why we need a RESET: an immediate, emergency MORATORIUM on the deportation and detention of migrants.

It's impossible to have a national dialogue about migration while this cruel, human rights atrocity rips our society apart. The legislation Congress is considering isn't enough, especially when they continue to fund ICE and the Border Patrol.

If you agree that migration and asylum are basic human rights, that it isn't criminal to try to survive or seek a better life, please visit our site: jhimmigrantsolidarity.org
